

## The Giving Stream

Welcome to The Giving Stream.

The Giving Stream is Your Farmer's unique self funding farming feeding program. Your Farmer bespoke built the operation so that they are always in a position to Give away a FREE meal every time a meal is sold. But we must be honest.....we often give away extra meals, how can we say no!!

Our feeding program currently operates in Bedfordshire Buckinghamshire, Northamptonshire, Hertfordshire and we have just branched out into London. We have offered our free service to every school within these areas and work closely with Government departments. These relationships are crucial to enable Your Farmer to connect with a person or family in food crisis.

The same high quality meals that we produce for sale are the meals that we distribute to help those in food crisis, so you can imagine what a blessing this is! This is not like your typical food parcel made up of tins, with meats and vegetables missing (the two most expensive items), No, our food parcels are made up of our farm finest, chef prepared produce.

We launched our feeding program in November 2017 and at 1 year old we have distributed 93,570 meals for FREE (as of 23/11/2018) helping to support those in food crisis.

If you have supported Your Farmer, Thank You x

Yours Faithfully
